

# YOUR GO-TO CENTER FOR ZIRCONIA!

Bayshore Dental Studio is a full service dental laboratory that has been serving dental practices nationwide since 1992. Our experience coupled with state of the art technology makes us your ideal laboratory partner.

## Z Crown™ Fully Layered Zirconia

### Masterfully Layered Porcelain

- e.max® ceramic used for layering on top of Zirconia coping
- Beautiful, strong, metal alternative
- Demonstrates the wear characteristics

## Z Crown™ Plus Buccal Layered Porcelain

### e.max® Beauty w/Full Zirconia Strength

- Layered porcelain on buccal/facial surface for all-ceramic beauty
- All bite surfaces in Zirconia for unparalleled strength
- Superior esthetics

## Z Crown™ Solid Full Contour Zirconia

### More Beauty, More Brawn

- Completely chip resistant
- Esthetic alternative to full cast crowns and metal occlusals
- Glazed final restoration prevents plaque buildup and opposing dentition wear

## Why Bayshore Zirconia?

- More beauty, more brawn
- 1400 Mpa flexural strength
- Single units to bridges
- Unparalleled marginal integrity
- Saves tooth structure (minimal shoulder preparation)
- Can be matched to any shade

## Bayshore's CAD/CAM and Milling Center

Now you can have the perfect crowns with Bayshore's CAD/CAM Scan, Design and Milling Center. Bayshore's Zirconia crowns and bridges are fabricated using advanced design and milling technology, guaranteeing a precise marginal fit, ensuring quality and consistency in every case, and resulting in reduced chair time.

- 5 year product guarantee
- Certified technician assigned to each client
- Full service dental laboratory
- Dentist and implant specialist on staff
- Consistent quality and rigorous quality control efforts
